

CUSHION

Different comfort is provided by various models.
We present you our cushions of choice.

- Please note that due to the nature of processing, the color and finish of L1 and L2 leather may differ slightly depending on the seasonal time of production.

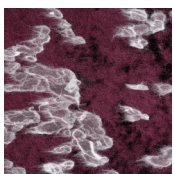

RIN CUSHION

The cover is made of a special Echizen velvet fabric (the same type as that in the permanent collection of the Museum of Modern Art in New York) with handmade Japanese paper stretched over the surface.

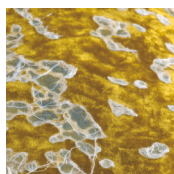

The pattern is inspired by stones and is available in three colors: purple, yellow, and black.

This innovative velvet, which is pleasant to the touch, is highly acclaimed in the fashion industry.
