

ROTTA

The feature of this sofa is the gently rounded arms with a floating design. We are particular about the material, and have achieved high-quality seating comfort. We also have a wide variety of sizes. A dedicated headrest and tray table can be ordered for a more relaxing experience.

Sofa 2360 (Fabric)

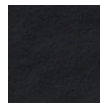

Sofa 1960 (Fabric)

- With the many size variations, you can choose as if it were made-to-order.
- The low-back type design does not obstruct the line of sight even when placed in the center of the living room and dining room.
- The sofa width can be selected from 1460 to 2360 in 10cm increments.
- Sofas 1460-1960 have 2 seats, whereas sofas 2060-2360 have 3 seats.
- The black metal legs give a modern and sharp impression with a floating appearance.
- It is a knockdown structure that secures the seat part to the base frame. Even in narrow spaces, it can be disassembled and quite easily relocated.
- The legs are spaced to be compatible with current floor cleaning robots.
- If you combine the headrest (sold separately), you can experience even more relaxing comfort.

Comfo Climate Form®

The seat uses "Comfo Climate Form", a high-density urethane exhibiting high moisture absorption and release properties accompanied by an elastic and compliant feel.

Exquisite lamination with a matrix of various urethane foams of different characteristics, creates a stable, comfortable seating at all times.

DACRON® Memorelle™

The back cushion is made of ultra-fine fiber (microfiber) cotton, which has the feel and flexibility of a low-resilience material, making it very comfortable.
