

# WOODREST

A classic recliner featuring an arm line that has detailed curves while valuing the texture of solid wood. The back and seat reclines in conjunction with the weight of the person sitting.

When combined with an ottoman, you can extend your feet and relax comfortably.

- A reclining sofa with a movable headrest that adjusts backwards and forward.
- The cover choices can be L1 or L2.
- Please note that due to the nature of processing, the color and finish of L1 and L2 leather may differ slightly depending on the seasonal time of production.

### Personal Chair

• Body frame : Steel, Plywood Tension material : Polyester mesh Cushion material : MDI urethane foam Arm frame, Curtain board : Solid white oak

### Stool

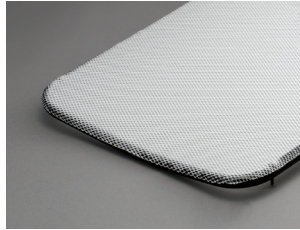

• Body frame : Plywood Tension material : Webbing tape Cushion material : MDI urethane foam Leg frame, Curtain board : Solid white oak

The Woodrest uses reclining technology developed and improved over many years.

### Slide bracket

The uniquely developed reclining slide fittings allow smooth and comfortable movement of the Woodrest.  
Each and every part is manufactured in a factory in Japan with consistent quality control.

### Polyester mesh

A polyester mesh sheet that is flexible and moderately stretchable is used.  
This seat, which is also used in train seats, has excellent shape retention, and is also integrally molded with the seat frame to achieve outstanding flexibility and durability.
