

# CB02

A TV board that can be used on both sides, is designed to be installed as a partition between the dining space and the living room. Bronze glass on the sides and copper-finished handles on the drawers give a classy impression.

With silent self-closing drawers, this TV board has excellent functionality and design. An optional glass shelf is offered for further versatility.

## Detailed specifications / features

### Glass shelf

If you install a glass shelf (sold separately) in the open space, you can use it as an AV device or a decorative shelf\*.

\* The glass shelf to be installed differs depending on the item.

### Silent self-closing

All drawers have a silent self-closing function. Just before it closes, it gently returns to its original position.

### Perfect for walls and compatible with cleaning robots

The legs are designed to fit inside the main body, so they can be installed perfectly on the wall without interfering with the baseboard. In addition, we have adopted a design that is raised from the floor, providing clearance for robotic cleaners.

### Wiring storage

The top plate and bottom plate are notched, and a space for storing cords is placed in front of the back panel. This structure provides clean, compact wiring.

### Bookstand

The rear cord storage space with copper-finished guides can also be used as a book stand. You can store magazines and your favorite books on either side.
